Re: American Steel Processing Recycling Center
Hillsborough County, FL
WACS No.: 106062

Dear Mr. Fanell:

On January 23, 2020, the Department received your request for a second time extension of the Administrative Order which expired on January 27, 2020. You requested the Administrative Order be extended to June 2020 as you continue to work through the permitting process. Based on a review of information and discussions with Division of Waste Management staff, the Department is denying this request. American Steel must cease receiving and processing metal compromised with ash until the appropriate permit is issued by the Department.

Sincerely,

A handwritten signature in blue ink that reads "Mary E. Yeargan".

Mary E. Yeargan, P.G.
Southwest District Director
Florida Department of Environmental Protection
