Subject: Notification Letter for Confirmation Monitoring - Lena Road Landfill
Attachments: 09217088.15 Notification Letter for Confirmation Monitoring 2020-05 WQMpdf

Good morning Steven,

Please see attached Notification Letter for Confirmation Monitoring at the Lena Road Landfill as required by Rule 62-701.510(6)(a) of the Florida Administrative Code. Confirmation sampling activities are currently scheduled to occur on May 29, 2020.

Please feel free to contact me if you have any questions or comments regarding this correspondence.

Thank you,

Whitney Rodriguez, P.E.

Temple Terrace, FL 33637

Subject: Notification for Confirmation Monitoring
Lena Road Class I Landfill, Manatee County, Florida
WACS Facility ID No. 44795
FDEP Permit No. 39884-021-SO-01

Dear Mr. Tafuni:

On behalf of Manatee County (the County), SCS Engineers prepared this letter to notify the Florida Department of Environmental Protection (FDEP) of our intent to resample the following monitoring wells at Lena Road Landfill: GW-6, GW-9, GW-10, GW-11, GW-12, GW-15, and GW-18. The parameters listed below were detected above drinking water standards and/or background water quality during the first 2020 semiannual water quality monitoring event at Lena Road Landfill, located in Manatee County, Florida.

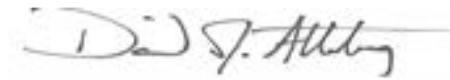

- GW-6: Arsenic and iron
- GW-9: Arsenic and iron
- GW-10: Antimony
- GW-11: Total Dissolved Solids (TDS)
- GW-12: Arsenic and iron
- GW-15: TDS
- GW-18: TDS

These anomalous results are either first time exceedances of these parameters in the wells (antimony in GW-10 and TDS in GW-11 and GW-18) or elevated results compared to historical data (TDS in GW-15 and arsenic and iron in GW-6, GW-9, and GW-12). Accordingly, the County will be performing confirmation monitoring on May 29, 2020, in accordance with Rule 62-701.510(6)(a) of the Florida Administrative Code to verify these detections. Please feel free to contact us if you have any questions regarding this matter.

Sincerely,

Whitney Rodriguez, P.E.
