Kaitlyn,

Sorry about that, yes you are correct there was an input error. The April 30, 2020 Stage III meter reading was put in as 61,839,944 rather than the correct value of 51,839,944.

Inserting the correct meter reading value the total in Stage III goes from 10,731,000 gallons to 731,000 gallons.

Would you like me to send a revised report or will this email suffice and correct the values as needed for next month.

Thank you.

Mr. Fischer –

Can you please verify the data read off of Leachate Meter #3 for April 30, 2020 for the below provided Lena Road Leachate Report? 10,031,336 gallons pumped from Stage III on April 30, 2020 looks to have been calculated in error.

Thank you,

Kate Newsome
