Subject: Manatee County Lena Road Landfill Piezometer P-9 Damage Notification
Date: Tuesday, August 11, 2020 12:58:08 PM

Mr. Tafuni,

On behalf of the Manatee County Utilities Department, Solid Waste Division (County) and the Lena Road Landfill Operation Permit Number 39884-021-SO-01, SCS is notifying the Department of damage to piezometer P-9. During the morning of August 10, 2020 the County observed P-9 had been damaged and is inoperable.

As required by the Operation Permit, within ten (10) days of this notice a written report will be provided to the Department describing what problem occurred and the remedial measures taken by the County to prevent reoccurrence. Also, within that report the proposed replacement piezometer design will be provided for approval by the Department. Following approval, the County will notify the Department within fourteen (14) days prior to the installation of the replacement piezometer. Since this piezometer is one of the monthly gradient monitoring points, the County will proceed as quickly as possible to install a replacement piezometer to ensure continuous monthly monitoring at this location.

Please feel free to contact the County or myself if you have any further questions or need any additional information.

Thank you.

Shane R. Fischer, P.E.
