**Subject:** RE: CEMEX S Inquiry - 40778

Good afternoon Robin,

The Department agrees with your determination that the CEMEX Brooksville South AFM Processing Facility is not required to submit the Annual Report referenced in Permit Specific Condition C.12, as the material processed by the facility is classified as alternative fuel material and not construction and demolition debris.

The Department will keep this information on file and will remove Specific Condition C.12 during the facility's next permit modification or renewal.

Please let me know if you have any questions.

Thank you,

**Emily Wargo**

Kate,

As you know, CEMEX has a Solid Waste Permit for an “Alternative Fuel Material Processing Facility”. The annual report required by the permit is for “Construction and Demolition Debris Facility”. The required Annual Report (Form 62-701.900(7) references materials for a “Construction and Demolition Debris Facility”; CEMEX is not a C&D facility. Therefore, CEMEX determined that the Annual Report required in Sect 2 C.12 does not apply. Furthermore, because of the classification of CEMEX’s permit, the annual report was not a requirement in previous permits for AFM.

Please see the letter attached that was sent to the Department on January 30<sup>th</sup>, 2019 that addresses the permit issued, and the associated requirements.

Thank you,

Robin Simons
