### Notes

**Notes:** This visit was to look at the tire storage area and to review their Emergency plan for the current year for the DEP. This facility is in compliance with applicable codes for the proper storage and handling of tires from the public. All the required fire suppression equipment listed on the EM Plan is present and operational. The "Dry" Hydrant just west of the scale house is functional and crews were able to draft to achieve 1500 GPM without difficulties.
