RE: FDEP File No. 0307930-002-WT
WACs No. 100118
DERM File No. SW-1713
MMD Enterprises, Inc.
9975 NW 88 Avenue, Medley, FL 33178

Dear Mr. Coward,

The actual cost of removing and disposing of 12,000 tires from MMD Enterprises, Inc., located at 9975 NW 88 Avenue, Medley, FL 33178, is \$6,800. However, a disposal cost of \$1.31 per tire will be used for this estimate. This unit cost was derived from adding a cumulative inflation factor of 1.113 (11.3%) to the unit cost of \$1.18, as published by State of Florida (which covers up to year 2014). The cumulative inflation factor was obtained by calculating the composite inflation factor from individual annual inflation factors that are shown on the FDEP website (floridadep.gov/waste/permitting-compliance-assistance/content/solid-waste-cost-estimates). Based on the adjusted disposal cost of \$1.31 per tire, the total cost to dispose 12,000 tires is \$15,760.08. This represents the most expensive closure cost.

Wilford Zephyr, P.E., LEED AP, CFM
