Subject: Extension Request for Groundwater Reporting

On behalf of the Hillsborough County Solid Waste Management Division (SWMD), SCS Engineers (SCS) is formally requesting an extension to submit the preliminary Evaluation Monitoring groundwater monitoring analytical results. Groundwater Monitoring Wells TH-83, TH-84, and TH-22A were sampled on January 8, 2021 in accordance with the FDEP notification letter dated November 20, 2020. The laboratory report was finalized on January 28, 2021, which makes Monday March 29, 2021 60 days from the receipt of the laboratory report. This schedule is established as part of FDEP rule 62-701.510(8)(a) FAC.

The SWMD is requesting a 30-day extension due to a temporary loss of staff who typically prepare the reporting submittals. SCS will assist with the preparation of the submittal during this temporary staffing shortage, and will submit to FDEP following County review and approval.

Thank you,

Kollan
