WOOD PROJECT NUMBER 6783-19-3182

Dear Mr. Vega and Mr Bejnar:

On behalf of American Tire Recycling Group, LLC Wood is submitting an inflation adjusted closure cost estimate for approval of the 2021 Financial Assurance requirements for the subject facility. The breakdown of the inflation adjustment for 2021 is provided as follows:

Approved Closure Estimate for 2020	FDEP Inflation Factor for 2021	Amount required for 2021 Financial Assurance
\$60,747.59	1.017	\$61,780.30

The basis of this inflation adjusted estimate is the itemized closure cost estimate submitted on 06/30/2020 and approved by DERM on 07/10/2020, which provides a breakdown of the costs to load, transport and dispose of the maximum quantities of waste tires stored at the site that are subject to financial assurance requirements.

Pursuant to rule 62-711.500(3), F.A.C., I certify that the quantity of tires stored at the facility does not exceed the maximum permitted quantity of 1,124 tons for the aggregate of whole and processed waste tires (including used tires) as referenced in the latest FDEP permit issued to the site.

Please call me if you have any questions or require any additional information.

Sincerely,  
**WOOD ENVIRONMENT & INFRASTRUCTURE SOLUTIONS, INC.**

Ricardo Fraxedas, P.E.  
Chief Engineer
