**Re: Trail Ridge Landfill Erosion Notification**

Dear Mr. Schroer,

This letter is to inform you that Trail Ridge Landfill experienced moderate sediment accumulation in stormwater ditches and pond #3 inlet. This sediment accumulation is a direct result of torrential rainfalls within the past couple of weeks. The site has measured approximately 10.5 inches of rainfall during the past two-weeks.

Additional time is needed to remove sediment from ditches and sediment delta formation from pond #3.

We are currently implementing the following corrective actions:

- Currently existing landfill personnel are actively addressing the erosion areas.
- Additional personnel and equipment have scheduled to the site to assist with the sediment accumulation in pond
- Employee work hours have been extended to help facilitate a timely clean-up

It is estimated that the repairs will be completed within a few weeks pending favorable weather patterns and the absence of any unforeseen problems or concerns. We will contact you if any issues arise that may alter the completion timeline.

If you have any additional questions or concerns please contact me via [eparker1@wm.com](mailto:eparker1@wm.com) or (904) 562-9755 or Morris Purvis via [mpurvis@wm.com](mailto:mpurvis@wm.com). or (904) 748-6012.

Sincerely,

Eric Parker  
Environmental Manager
