Good morning Mr. Belfakir:

It appears that the calculation line in the attached letter was not updated. The calculation should be as follows:

2021 Disposal Cost Estimate \$5508.68 x 1.012 = \$5,574.78

Please revise the letter accordingly.

Please let me know if you have any questions.

**Re: US 27 Tires, LLC (WACS # 101295)
Financial Assurance Cost Estimate**

To Whom It May Concern,

There has been no change in the above referenced facility concerning waste tires storage, and the facility is operating in compliance with the permit requirements. The maximum number of tires that can be stored onsite is 5300 tires. The anticipated disposal cost for the maximum storage quantity is calculated as follows:

2020 Disposal Cost Estimate = \$5508.68

FDEP Inflation Multiplier 2021 = 1.012

2021 Disposal Cost Estimate $\$5508.68 \times 1.012 = \5574.78

Current Bond Balance: \$5620.14, Citizens Bank Trust Fund No. [REDACTED]

If you have any questions, please contact me at 863-248-2911 or email us27tires@gmail.com

Sincerely,

Abdel Belfakir
