Subject: RE: Production-WACS Electronic Upload for Facility 00039859

All,

Results for MW-19 did not upload; MW-19 field measured parameters reported in the ADaPT Field EDD reported 1 record with the Sample_Method code of "CP" the remaining records for MW-19 were reported with Sample Method Code "SP". This causes a conflict that prevents the upload of data for MW-19. I have deleted all data in WACS, corrected the Field EDD, updated the ADaPT EDD zip file in OCULUS and processed and exported/uploaded the corrected data to WACS. This data will upload @ 1:30 AM on 09/30/2021.

Thank you,
