EXTERNAL MESSAGE

This email originated outside of DEP. Please use caution when opening attachments, clicking links, or responding to this email.

Good Afternoon, Mr. Tafuni and Ms. McAleer:

We wanted to provide the Department with an update regarding **Question 2.22**: We have established a temporary berm as shown in the attached photos. We plan to install a final berm once we get the water pumped down completely. We are still pumping straight from the cell and transferring to City of Wauchula for treatment. We also placed a berm along the hill (Phase I Section II) to help divert any leachate that was ponding in that area. We will continue to follow up and send photos as we complete these projects. As a reminder, today is my final day here at the Landfill so if you need any follow-up clarification or more pictures, please let Ofelia or Christopher know.

p.s. I apologize if you received this twice, I believe the original attachments of pictures was too large, so I created a word document with them.

Best Regards,

Marissa Alexander
