### EXTERNAL MESSAGE

This email originated outside of DEP. Please use caution when opening attachments, clicking links, or responding to this email.

Good morning,

In reviewing the analytical results for First Semiannual 2022 sampling event at the Citrus County Central Landfill, we noted a first time exceedance of Arsenic in MW-17 at a concentration of 10.6 ug/L (PDWS is 10 ug/L). This email serves to notify the department that a confirmation resampling of the well is being conducted on May 6, 2022 and results from the resample will be submitted as a part of the First Semiannual 2022 Compliance Monitoring Report.

Please let us know if you have any questions or comments.

Thank you,

**Elizabeth D. Kennelley, MS, CEPM**
