RE: Emergency Use Approval
PPSA: PA 90-30 & WACS: 93715 Lee County Resource Recovery Facility

Dear Ms. DuBois,

This letter is to confirm the e-mail provided by Renee Kwiat, South District Office, Florida Department of Environmental Protection, on October 3, 2022.

The Department has no objections to the emergency use of the enclosed grizzly area and non-ferrous bunker as follows:

- All ash residue is bypassed to the enclosed grizzly area and then stored in the enclosed non-ferrous bunker.
- Ash is managed prior to transport to the landfill in accordance with Specific Condition B.I.H.3.e. of the facility's Conditions of Certification (PA 90-30).

This approval covers the temporary use of the alternate enclosed areas described above until the ash building can be repaired.

Please let us know if we can be of further assistance.

Sincerely,

El Kromhout, P.G.
Environmental Administrator
Solid Waste
