Subject: RE: Erie & Lena Road Landfills - Notification of Groundwater Sampling Activities

EXTERNAL MESSAGE

This email originated outside of DEP. Please use caution when opening attachments, clicking links, or responding to this email.

Good afternoon Taylor,

We reviewed the groundwater sampling logs from the Lena Road Landfill second semiannual sampling event conducted in November 2022. It was noted that dissolved oxygen readings were not less than 20% nor within the secondary criteria of +/- 0.2 mg/L at monitoring wells GW-4, GW-9, and GW-20, prior to collecting groundwater samples for lab analysis. This issue was discussed again with the lab and these three wells will be resampled on Thursday, 12/29. Please let this serve as our notification of groundwater sampling activities at the Lena Road Landfill.

Please let us know if you have any questions.

Thank you,

Whitney Rodriguez, P.E.

Subject: Erie & Lena Road Landfills - Notification of Groundwater Sampling Activities

Good afternoon Taylor,

Please let this serve as our notification of field sampling activities at the Manatee County Erie and Lena Road Landfills (WACS ID 44909 and 44795, respectively). The semiannual groundwater sampling events will occur on 11/14-11/17.

Please let me know if you have any questions.

Thank you,

Whitney Rodriguez, P.E.
