Application No. 0245850-001-WT/02  
WACS No. 00094452  
Closure Cost Estimate

Dear Mr. Reisig:

The Department hereby approves the closure cost estimate dated April 3, 2008, and received by the Department on October 9, 2008, for the subject facility. Please note that this estimate is for the Year 2007, and it was due in December 2007. A copy of the approved estimate is enclosed for your records. Please submit proof of financial assurance corresponding to the approved estimate to:

Solid Waste Financial Coordinator  
Attention: Tor Bejnar  
Florida Department of Environmental Protection

Closure Cost Estimate  
for  
Florida Tire Terminal Facility  
400 Feagin St.  
Avon Park, FL 33825  
Revised on April, 1<sup>st</sup>, 2008

RECEIVED - D.E.P.  
OCT 09 2008  
SOUTH DISTRICT

If a closing should have to occur at the Florida Tire Terminal facility in Avon Park, FL, the following costs would apply. Florida Tire Terminal has a letter from Greenman Technologies (attached) stating the cost to load and remove all tires is \$131.50/ ton.

The actual waste tire quantities on hand and the weights associated with each category are the results of an inventory taken on 3-16-06 in cooperation with Polston Engineering. These figures indicate the maximum capacities of the various tire storage cells that are indicated on the Facility Plan.

Passenger and Light Truck Tires- 1902 units at 26 lbs/unit=49,452 lbs which is equivalent to 24.73 tons.

Truck Tires- 3170 units at 135 lbs/unit =427,950 lbs which is equivalent to 213.98 tons.

Large Truck Tires- 693 units at 195 lbs/unit=135,135 lbs which is equivalent to 67.57 tons.

The total of waste tires equals 306.28 tons.  
The following calculation applies.

306.28 tons of waste tires x \$131.50 = \$40,275.82.

The 306.28 tons represents 5765 total units, which is well below the maximum 15,000 maximum units that are agreed to in the alternative procedures plan but maximum capacities will vary by the size of the tires inventoried.

This figure of \$40,275.82 represents the total closing cost using 131.50 as the per ton cost to remove the tires.
