Subject: RE: Lena Road Landfill - Permit No. 39884 - 024-SO-01
Date: Thursday, October 19, 2023 4:22:00 PM

Good afternoon Janna,

After a review of the most recent 1st Semi-Annual 2023 Groundwater Monitoring Report, the Department agrees with the decision to re-develop GW-10. Please ensure that during the re-development of the well, everything purged is containerized and disposed of properly.

In addition, the Department agrees with the decision to discontinue sampling of GW-10A; however, at this time the Department does not approve of moving forward with the abandonment of the well.

Thank you,

Betsy Loaiza

Good morning Betsy,

We have scheduled the semiannual groundwater sampling event at the Lena Road Landfill for November 6th - 9th, 2023. As recommended in the First 2023 Semiannual Water Quality Monitoring Report, Manatee County would like to re-develop GW-10 before the next sampling event and also confirm that sampling GW-10A has been discontinued. Please let me know if this is acceptable and feel free to give me a call to discuss.

Thank you for your time,

Janna Hall

Good morning Jana,

Thank you for the submittal of the First 2023 Semiannual Water Quality Monitoring Report for Lena Road Landfill. Once the ADaPT files are uploaded, a complete review of the data and report can be conducted.

Based on the review of new data within the report; the Department will be able to move forward with a decision on the requested abandonment of GW-10A.

Thank you,

Betsy Loaiza
