RE: Global Tire Recycling Waste Tire Processing Facility
Financial Assurance Cost Estimates
Permit No.: 136808-005-WT/02, Sumter County

Dear Mr. Bailey:

This letter is to acknowledge receipt of revised cost estimates dated November 11, 2008 (received November 12, 2008), for closing of Global Tire Recycling Waste Tire Processing Facility. The Department apologizes for the delay in review of this submittal. The cost estimates received November 12, 2008 (total for closing 75,250.00), are **APPROVED for 2008**. This approved amount includes 1315 tons of passenger tire equivalents and 190 tons of residual derived waste (fiber, metal, office waste etc.). The next annual update (revised or inflation-adjusted estimates) is due no later than **March 1, 2009**.

A copy of these estimates will be forwarded to Mr. Frank Hornbrook, Solid Waste Section, FDEP, 2600 Blair Stone Road, Tallahassee, Florida 32399-2407. Please work with him directly to assess the facility's compliance with the funding mechanism requirements of Rule 62-701.630, F.A.C. If you have any questions, you may contact me at (813) 632-7600 ext. 385.

Sincerely,

Steven G. Morgan

**RE: Global Tire Recycling Waste Tire Processing Facility
Permit #: 136808-005-WT/02
Sumter County, Florida**

Dear Mr. Morgan:

The cost estimate provided with the permit renewal had some of the numbers inadvertently misplaced on the cost estimate spreadsheet. The itemized corrections to the cost estimate are as follows:

1. The inside and outside storage bins, Areas H1 - H3, are considered finished crumb rubber inventory and as such is not considered to be waste product but rather saleable product. Therefore, the change on the spreadsheet shows a reduction of Waste Tires & Processed Tires by 185 + 150 tons, and Crumb Rubber in Super Sacks shows an increase of 185 + 150 tons. Note that the saleable materials are removed at no charge.
2. The Wire Pile, Area J3, is also considered as saleable product as it can be recycled. Again, this material will be removed at no charge. Therefore, Residual Derived Waste is reduced by 45 tons and a separate cost category for Wire Pile is added.

Also attached is an updated letter from Liberty Waste Services outlining their costs.

As always should you have any further comments please feel free to contact us at your convenience.

Sincerely,

A2L Technologies, Inc.

Dear Mark Bailey:

In reference to our conversations, Liberty Tire Recycling, LLC is willing and able to clean-up the Global site in the event your business closes under the following terms:

- Waste Tires on site, to be removed from site and recycled: \$ 50 per ton
- Crumb rubber or finish goods in super sacks or bins, to be removed and properly handled: No Charge
- Other waste tire derived materials on site, to be removed and properly handled: \$ 50 per ton
- Clean wire from Bi-Meta: CWS: No Charge

Please let me know if you need any additional information.

Sincerely,

Dewey C. Grandham Jr.
