**SUBJECT: Lee County SWERF Request for Modification to Conditions of Certification PA-90-30G
Construction and Demolition Recycling Facility**

Donald D. Stilwell
County Manager

David M. Owen
County Attorney

Dear Mr. Halpin:

Diana M. Parker
County Hearing Examiner

A couple of weeks ago, I briefly discussed the County's proposed construction debris recycling facility (CDRF) with Mr. Charles Emery, Solid Waste Environmental Administrator, of the DEP South District Office. We agreed that a number of conditions in our Site Conditions of Certification (PA 09-30G) are directly applicable to the construction and operation of the CDRF.

Lee County is in the process of reviewing and comparing its Conditions of Certification (CoC) with the construction/operations permit issued by the DEP South District for a similar CDRF currently operating in Lee County. Mr. Emery and I thought that such a review would be helpful to determine if there are any additional conditions or condition modifications specifically required for the County's requested modification to its CoC.

We expect that the results of this review will be completed within the next week and will forward our analysis to your office and the South District. If you have any immediate questions, please call me.

Sincerely,

Lindsey J. Sampson, P.E., Director
Solid Waste Division
