SECTION 1.0 - FILE REVIEW

Requirements:

The requirements listed in this section provide an opportunity for the Department's inspector to indicate the conditions found at the time of the inspection. A "Not Ok" response to a requirement indicates either a potential violation of the corresponding rule or an area of concern that requires more attention. Both potential violations and areas of concern are discussed further at the end of this inspection report.

COMMENTS:

09/28/2009

C&D recycling is no longer processed through the manual recycling line conveyor system. Processed via large machinery on pavement.

The facility is in the process of investigating the possibility of shredding tires on site. The tires which would be shredded would come from on-site fleet maintenance and tires pulled from the TS waste stream.

Holes in pavement are being repaired next week.
