Approval of Class I Landfill Revised Sequence Plan

Dear Mr. Marion:

The Department has reviewed the revised sequence plan for the Class I landfill received on August 14, 2009. Follow-up conversations with you and Mr. Purves indicated that this revised sequence will be implemented as part of the corrective action to control the leachate at the facility.

The plan is approved for implementation. Please note, if this proposal does not correct the leachate problem you will have to provide another solution to permanently abate the problem.
