Mr. Leonard Marion
Volusia County Solid Waste Division
3151 East New York Avenue
DeLand, FL 32724

OCD-SW-10-0564

Volusia County – SW WACS # 27540
Tomoka Farms Road Landfill – Class I, North Cell – Closure
Second Request for Additional Information
Modification of Permit No. SF64-0078767-020
Permit Application No. SF64-0078767-027

Dear Mr. Marion:

The additional information dated November 11, 2010 was received on November 12, 2010. The items listed on the attached page remain incomplete. Evaluation of your application will continue to be delayed until all the requested information has been received.

Pursuant to Section 120.60(2), Florida Statutes, the Department may deny an application, if the applicant, after receiving timely notice, fails to correct errors and omissions, or supply additional information within a reasonable period of time. Accordingly, please provide the additional information within 30 days of the date you receive this letter. Submit three copies of the requested information to the Department and reference the above permit application number in your correspondence.

If you have any questions, please contact me at 407-893-3328.

Sincerely,

F. Thomas Lubozynski, P.E.
Waste Program Administrator

The Item Numbers are the same as in Department of Environmental Protection, First Request for Additional Information letter OCD-SW-10-0489 dated October 14, 2010.

1. The response stated, "Volusia County may request to begin the post closure care of the south cell in a separate application at a later time." For the purpose of this Intermediate Modification, the post closure care provisions for the North and South Cells are still combined, instead of a separate plan for each cell. The Department's concerns about a separate long-term care period for the South Cell will be addressed in a separate letter that is not part of the permitting process.

4.b. The response to this Item states that calculations have been added to Attachment 0.2.h, Sheet 8 of 30, to justify the use of 3 inlets versus 2 inlets. The Department has not received Sheet 8 of 30 in Attachment R3-Revised Attachment 0.2.h. Please provide it.

9. Since the closing activity cost estimate of \$14,440,000.00 provided in Table R-1 on page R-1, Section R of the Engineering Report dated August 2010, is higher than the currently approved closure cost estimate of \$10,717,544.26 (DEP letter OCD-SW-10-0461, dated 9/23/2010), the Department is requesting that you submit a detailed cost estimate for the total 90 acres of the North Cell. In accordance with Rule 62-701.630(3), F.A.C., submit a detailed closure and long-term care cost estimate on DEP Form 62-701.900(28), effective January 6, 2010, for the entire North Cell signed and sealed by a Professional Engineer licensed in the State of Florida, for a third party performing the work, on a per unit basis, with the source of estimates indicated. Please note that the cost of \$160,000.00 per acre used in your Table R-1 is based on values provided in the Financial Responsibility Closure and Long-Term Cost Estimates FY2009. This document had an inflation adjustment to the previously approved cost estimate. It was not a detailed cost estimate.
