Tomoka Farms Road Landfill – North Cell, Class I – Closure  
Modification to Gas Collection and Control System  
Permit No. SF64-0078767-020

Dear Mr. Lebron:

The Department has received your notification dated November 5, 2010 on November 10, 2010, referencing the modifications to the existing landfill gas collection and control system (GCCS) at the Tomoka Farms Road Landfill.

The Department is acknowledging by this letter that the modifications involving the installation of a third blower of the same type and model as the existing blowers to the utility flare station is strictly operational and can be incorporated in the closure report and record drawings to be submitted with the closure activities expected to be completed by September 2011.

A solid waste permit modification will not be necessary for the above operational activities.

If you have any questions, please contact me at (407) 893-3328.

Sincerely,

F. Thomas Lubozynski, P.E.  
Waste Program Administrator
